

Housing Project Design Award

CROMWELL HOUSE, MORTLAKE

Completed in the spring of 1992, this high quality private housing development, of fourteen two-and four-bedroom townhouses, won the Housing Project Design Award 1992, sponsored by the DoE, NHBC and RIBA.

Grouped around a central landscaped courtyard, the scheme creates a community environment. Carefully designed in character with the Georgian conservation area and overlooking the River Thames at the end of the University boat race course, it was implemented by Ideal Homes for the joint venture partnership of Trafalgar House and Grand Metropolitan estates.
